This month's member spotlight is Cheryl Berzanskis!

"My name is Cheryl Berzanskis and I've been a Master Naturalist since 2016.
I grew up in Georgia where kudzu is king and moved to the Panhandle in 1981 and never looked back. It took awhile, but I came to love the macro beauty of the plains and the secrets of the canyons. I first heard of the Master Naturalist program some 20 years ago and held onto the idea of joining until I had the opportunity to train with the Llano Estacado chapter in Midland. Learning about the natural world is always a joy and I particularly like the days we spend in Palo Duro Canyon admiring its geologic handiwork. Volunteering sometimes leaves me stumped because I don't have a particular thing I'm good at and I fear I'll give someone an incorrect answer. So to get the hours and avoid the transmission of error, I like to lead student hikes. The kindergarteners surely know less than I.
Our chapter work brings joy and meaning to my life. Our mutual respect for the natural world reminds me of my place on the planet."
