Immediate Past President  
Liz Robbins  
liz.robbins.44@gmail.com

#### President's Message

A few weekends ago, I went to Guadalupe Mountains National Park to climb the highest peak in Texas, Guadalupe Mountain. It was a great trip, and I went with a friend and fellow Master Naturalist, Chris Bacorn, class 34. As I was heading to the ranger station, I hear a very succinct “Matt Carley!” coming from someone’s car. I’ll be darned if it wasn’t Emily Weiner, class 32! It was such a joy to see her, especially there of all places so far away in West Texas. And this just proves my point—the Master Naturalists are so much more than just an organization. If you so choose, it can be a great opportunity to make new friends and create fellowship with like-minded individuals. No matter what age, race, sex, or nationality, we are all bound together by a common thread. We care for our environment—its flora and fauna—and we want to educate anyone who will listen in order to make this world a better place.

Spring is just around the corner, and the membership drive is ongoing. If you know someone who has not paid their dues or has just meant to but forgotten, give them a nudge. Let’s collectively make an effort to reach out to someone we know, perhaps a fellow class member, who has just gone dormant during the winter and needs some time in the sun to warm up and become an active member once again. My offer still stands to sponsor someone, no reason necessary; just email me, and I’ll pay your dues for you. See you at the meeting. Cheers!

## Newsletter Policies

We try to publish all material we receive, but space is limited in each month's newsletter. Long articles may be published on the website instead of the newsletter. Event notices must go through Pam Ball; and only the Activities Information Committee is authorized to declare whether an event is approved for Advanced Training or Volunteer Service Hours. Deadline for submissions is the 25th of each month.

NEWSLETTER Tales—A Look Back in Time

*What newsletter items did AAMN members encounter in past issues?*

**Feb 2007:** Volume 11, Issue 2 — Ron Dowda reported that the AAMN Chapter was one of six volunteer organizations that cooked, served, and sold sausages to customers of Bass Pro Shops in San Antonio. The \$5,000 total sales was divided among the six groups according to the percentage of hours worked. The seventeen AAMN volunteers earned \$899.06 for their 75.5 hours of volunteer time.

**Jul 2008:** Volume 12, Issue 7 — SAPAR staff members Jayne Neal and Wendy Cooley (Leonard) announced the continuation of cave cricket surveys at three different sites on selected evenings. Participants hike to the karst feature and count crickets for about 2 hours after sundown, sitting outside and counting crickets as they emerge from the rocks. Headlamps are provided.

# March Training and Volunteer Events

## **Volunteer Opportunity at Guadalupe River State Park: School Program Volunteer Training Opportunity (AT)**

Wed, March 2, 9:00 AM – 2:00 PM

Guadalupe River State Park, 3350 Park Road 31, Spring Branch, TX

Guadalupe River State Park provides a number of educational opportunities for school groups each spring. Conducting these requires a corps of education-minded volunteers to help lead walks and work with children at various stations. If you would be interested in joining our growing group of volunteer teacher-naturalists, please contact Park Ranger Craig Hensley at [craig.hensley@tpwd.texas.gov](mailto:craig.hensley@tpwd.texas.gov) and plan to join us for this training session.

## **Texas Tough Roundtable Series: Xero Turf (AT)**

Sat, March 5, 9:30 AM – 11:00 AM

San Antonio Botanical Garden, 555 Funston Place, San Antonio, TX

Meet with gardening experts in these roundtable forums to discuss basic design principles and implementation techniques for drought-tolerant landscapes. Fee: \$15 (\$13.50 members) For information, contact Nadezhda at [deprograms@sabot.org](mailto:deprograms@sabot.org). Xeriscaping in South Texas is much more than rocks and cacti. Get a proper introduction to xeriscaping and learn how to apply water conservation principles in your landscape design. Texas Tough Roundtable: Xero Turf There are varieties of turf grass that work best in San Antonio, with low-water requirements. Learn drought-tolerant turf grass options and which is best for your landscape.

## **Kids Alive! (AT)**

Sat, March 5, 11:00 AM – 1:00 PM

Government Canyon State Natural Area, 12861 Galm Road, San Antonio, TX

Join us for a wilderness survival class for kids! Activities will include games, demonstrations and instruction, followed by a short hike. Program open to ages 6-14; all minors must be accompanied by parent or guardian; no pets please. Reservations required and accepted through noon, March 4. Class size limited to the first 20 kids who sign up. Sorry, no group reservations. Reserve your spot online at <http://friendsofgc.org/events/>.

## **30 Bugs Every Gardener Should Know (AT)**

Thu, March 10, 10:00 AM – 12:00 PM

Texas AgriLife Extension Office, 3355 Cherry Ridge, Ste 208, San Antonio, TX

The 30 “bugs” you are likely to see in your garden, landscape, flowers and trees this spring are the subject. Learn which ones are bad, which ones are good, and what you can do manage or encourage them. See real insects and pictures and bring any insects or damage you need identified. Please RSVP to Molly or Nick at [meck@ag.tamu.edu](mailto:meck@ag.tamu.edu) or 210-631-0400.

## **Botanical Garden Native Plant Walk (AT)**

Fri, March 11, 10:00 AM – 11:30 AM

San Antonio Botanical Garden, 555 Funston Place, San Antonio, TX

Explore our 11-acre Texas Native Trails with a Master Naturalist. Meet at Carriage House. Free for Botanical Society members. No registration required. For information, contact Nadezhda at [deprograms@sabot.org](mailto:deprograms@sabot.org).

## **Hike the Canyon (AT)**

Sat, March 12, 8:30 AM – 12:00 PM

Monthly on the second Saturday

Government Canyon State Natural Area, 12861 Galm Road, San Antonio, TX

Join the Friends of Government Canyon and the Sierra Club for a jointly-led guided hike on one of the many trails at Government Canyon State Natural Area. The hike will range from 4 to 7 miles depending on the group. Open to ages 13 and over; minors must be accompanied by an adult. Group size is limited; no pets please. Dress appropriately; sunscreen and hat recommended. Wear sturdy footwear appropriate for rough trails; bring two liters of water per person and a snack. Natural Area Entry fees apply. Meet at the Visitors Center by the rainwater harvesting tower after stopping at the Entrance Fee Booth Area to self-pay/register. Plan to be at the Visitor Center no later than 8:15 AM; the hike starts promptly at 8:30AM. Subject to cancellation. On inclement mornings call GCSNA's main office (210-688-9055) after 7:30 AM Saturday to check on trail conditions, or go to the GCSNA website twitter feed ([tpwd.texas.gov/state-parks/government-canyon](http://tpwd.texas.gov/state-parks/government-canyon)), or to the GCSNA Facebook page. For more information call 210-688-9055; ext. 2009.

# March Training and Volunteer Events

## **Bracken Work Day (VSH)**

Sat, March 12, 9:30 AM – 1:00 PM

Bracken Bat Cave, San Antonio, TX

We will have Boy Scouts out to work. We will collect their liability forms as well as helping and supervising their work. They may be trimming trees, loading the cuttings on a dump trailer, and possible other activities. We'll send more information closer to that date. For information, contact Don Bergquist at [donedith@sbcglobal.net](mailto:donedith@sbcglobal.net).

## **Starting Out Wild Training (AT)**

Sat, March 12, 9:30 AM – 11:30 AM

Phil Hardberger Park Urban Ecology Center Classroom, 8400 NW Military Hwy, San Antonio, TX

Free and open to all educators, volunteers, parents and administrators who work or want to volunteer with 1-3 year olds. Snacks included. To register for this training please email Susan Campbell, Susan.Campbell@sanantonio.gov, 210-207-3280.

## **Kids ALIVE! (AT)**

Mon, March 14, 11:00 AM – 1:00 PM

Government Canyon State Natural Area, 12861 Galm Road, San Antonio, TX

Join us for a wilderness survival class for kids! Would you know what to do if you got lost in the wilderness? Join SOS Adventures Master Outdoor Leader Joey Rios and learn the skills you'll need to stay alive and get found! This will be a fun and interactive course designed to teach kids the skills they'll need to be confident and safe if they ever get lost outdoors. Activities will include games, demonstrations and instruction, followed by a short hike. Dress for the weather; bring plenty of water, a snack and sun protection. Program open to ages 6-14; all minors must be accompanied by parent or guardian; no pets please. Reservations required and will be accepted through noon, March 4. Class size limited to the first 20 kids who sign up. Sorry, no group reservations. Reserve your spot online at [friendsofsgc.org/events/](http://friendsofsgc.org/events/). Include name of each participant, age if under 18, e-mail address and telephone number for each reservation. For more information, e-mail [activities@friendsofsgc.org](mailto:activities@friendsofsgc.org) or call 210-688-9055; ext. 2009. Natural Area entrance fees apply; program subject to cancellation.

## **Explore the Canyon to Kallison Ranch (AT)**

Sat, March 19, 8:30 AM – 12:00 PM

Government Canyon State Natural Area, 12861 Galm Road, San Antonio, TX

Join TPWD Interpreter John Koepke and our regular Natural Area hike leaders for a special Explore the Canyon to the historic Kallison Ranch in Government Canyon SNA. Open to all ages; minors must be accompanied by an adult and capable of hiking 3-5 miles over fairly rugged terrain. Group size limited; no pets please. Dress appropriately, sunscreen and hat recommended, and wear sturdy footwear appropriate for rough trails; bring two liters of water per person and a snack. Meet at the Visitors Center by the rainwater harvesting tower. Reservations are required and can be made online at [friendsofsgc.org/events/](http://friendsofsgc.org/events/) through March 18. Sorry, no group reservations. Include name, age if under 18, email address and telephone number of each individual. For information email [activities@friendsofsgc.org](mailto:activities@friendsofsgc.org) or call 210-688-9055; ext. 2009. Subject to cancellation; Natural Area entrance fees apply.

## **GCSNA Night Hike (AT)**

Sat, March 19, 7:30 PM – 9:30 PM

Government Canyon State Natural Area, 12861 Galm Road, San Antonio, TX

Experience the canyon after dark. Join knowledgeable guides on a short hike. Participants should be able to hike 3 miles (round trip) over rugged but beautiful trails with some elevation gain. Dress for the weather, wear sturdy shoes. Bring a flashlight, at least a quart of water, and a snack if you like. Meet at the Visitor Center by the Rainwater Harvesting Tower. Reservations required and accepted through noon, March 18. Group size limited to the first 12 who register; open to ages 14 and older; minors must be accompanied by a parent or legal guardian; no pets please. Reserve your spot online at [friendsofsgc.org/events/](http://friendsofsgc.org/events/). No group reservations. Include name, age if under 18, e-mail address and telephone number for each reservation. Due to weather, this program is subject to cancellation. For more information or to confirm program please e-mail [activities@friendsofsgc.org](mailto:activities@friendsofsgc.org) or call 210-688-9055, ext. 2009. Natural Area entrance fees apply. Self-register as you enter the Natural Area. Instructions are posted to the right of the Fee Booth. You will need correct change: \$6 per adult (13 years or older), or enter your annual Texas State Parks pass number on the appropriate line of the self-pay envelope.

# March Training and Volunteer Events

## **Farm Classroom Guide Training (AT)**

Mon, March 21, 9:00 AM – 1:30 PM

Herff Farm, 33 Herff Road, Boerne, TX

Farm Classroom's mission is to partner with formal educators and the community to assist in implementing agriculture related concepts, to create connections between food and farms, appropriate management of natural resources, and skills or sustainable living.

Lessons will cover the following topics: Soil as an Ecosystem; Compost: Decomposition and Decomposers; Plants: Parts of a Plant, Plant Life Cycle, and What a Seed Needs; Herff Farm Pioneer History; What's in your lunch? All about Waste, Reusing, Recycling, and Composting. To register, please contact: Stephanie Colvard @Stephanie@cibolo.org or 830-249-4616. Snacks & lunch provided.

## **Gardening and Water Wise Class: WaterSaver Landscape Coupon Series (AT)**

Sat, March 19, 9:30 AM – 12:30 PM

San Antonio Botanical Garden, 555 Funston Place, San Antonio, TX

This spring the SAWS WaterSaver Landscape Coupon focuses on native and adapted plants that thrive in San Antonio climates. The San Antonio Botanical Garden offers classes to help customers create successful landscapes with step-by-step instruction. Free to members or with admission. Pre-registration required. Topics covered in our sessions include Designing and Planning, Retrofitting Your Space for Drought Conditions, Plant Tour & Tips. Contact Nadezhda at [deprograms@sabot.org](mailto:deprograms@sabot.org).

## **Wildflower Walk: Spring Has Sprung ! (AT)**

Sun, March 20, 1:30 PM – 4:00 PM

Government Canyon State Natural Area, 12861 Galm Road, San Antonio, TX

Celebrate the Vernal Equinox and come see early bloomers! Participants must be able to walk over rocky, uneven ground. Open to ages 8 and up; minors must be accompanied by a parent or guardian. No pets please. Registration required and will be accepted through noon, March 19 at [friendsofsgc.org/events/](http://friendsofsgc.org/events/). No group reservations. Include name of each participant, age of under 18, e-mail address and telephone number for each reservation. Subject to cancellation.

## **Oak Loop Seasonal Walk: Trees of Phil Hardberger Park (AT)**

Sat, March 26, 8 AM – 10 AM

Phil Hardberger Park Urban Ecology Center, 8400 NW Military Hwy, San Antonio, TX

Leaders: Wendy and Stan Drezek. Expert presenter: Ron Tullius. Walks start from the patio of the Urban Ecology Center. Most walks go around building using the mulched path along the south side of Butterfly Meadow. Then turn north thru the middle of the original savanna to the Oak Loop Connector Trail, and finally around the Oak Loop Trail. Some events may utilize mainly the Savanna Loop.

## **Botanical Garden Native Plant Walk (AT)**

Sat, March 26, 10:00 AM – 11:30 AM

San Antonio Botanical Garden, 555 Funston Place, San Antonio, TX

Explore our 11-acre Texas Native Trail with a Master Naturalist. Meet at Carriage House. Free for Botanical Society members. No registration required. For information, contact Nadezhda at [deprograms@sabot.org](mailto:deprograms@sabot.org).

## **GCSNA Bird Hike: Golden Cheek Warbler Hike (AT)**

**Note: THIS IS EASTER SUNDAY; HIKE IS TENTATIVE**

Sun, March 27, 8:30 AM – 12:00 PM

Government Canyon State Natural Area, 12861 Galm Road, San Antonio, TX

Join Steve Hawkins, member San Antonio Audubon Society Bird Records Committee, for a hike to find birds of Government Canyon and the Edwards Plateau. We will look for changes in GCSNA's bird life as the seasons progress. Length of walk and destination will vary, depending on the interests, abilities, etc. of the group. Open to the first 12 people who show up (no large groups please). All ages welcome. Minors must be accompanied by an adult. No pets please. Meet at the Visitor Center by the Rainwater Harvesting Tower. BYO binoculars or binoculars can be provided. Natural Areas fees apply; subject to cancellation. For information email [activities@friendsofsgc.org](mailto:activities@friendsofsgc.org) or call 210-688-9055; ext. 2009.

# San Antonio Parks and Recreation Natural Areas Stewardship Activities

Beware the Ides of March! Go outside this month, and you will be hooked on Nature! March is generally neither too hot nor too cold; winter migratory birds are still around early in the month, and a new spring warbler arrives daily, herps awaken, and leaves are that lovely shade of “green promise.” With all this activity, naturally, there are lots of hungry creatures looking for food. Beware, though; the woods are filled with lookouts.

University of Montana researcher Erick Greene has studied alarm calls for 10 years, and his team is finding that “different alarm calls can have specific meanings—that alarm calls are actually a spoken language among birds, and several species understand what’s being said” (Axelson, G. Winter 2016. All about Birds. pp.4-7.). For example, one kind of call is given when the threat is stationary. These calls typically are “loud, harsh, large-bandwidth calls... sounds designed to travel far and wide” and have the effect of summoning other birds. Another kind of call is high-pitched, does not transmit far, and serves to alert birds to take cover.

By using extensive networks of microphones, Greene has recorded “*seet* calls relayed across several different species, from Black-capped Chickadees to Lazuli Buntings to House Finches to Song Sparrows. The microphone array clocked the alarm signal traveling up to 100 [miles per hour] from an initial point to 200 meters away.”

We are putting out the word that there are great opportunities to help preserve and manage your Natural Areas. See the calendar below for opportunities, and contact Jayne Neal at [Jayne.Neal@sanantonio.gov](mailto:Jayne.Neal@sanantonio.gov) or 210-207-3785 if you have questions.

Come prepared to do trail maintenance, tree protection, landscape maintenance, and/or removal of small junipers. Please bring leather work gloves. Construction on Babcock between Camp Bullis and Luskey may impact your travel route.

March 3 and 31, 8:00-11:30 AM Crownridge Canyon Natural Area, 7222 Luskey, meet in the parking lot

March 17, 8:00-11:30 AM Friedrich Wilderness Park, 21395 Milsa, meet at Jayne’s office in the Administration/Classroom building

# Balcones Invaders News

In June, 2015, Paul Ehrlich and his team of scientists at the Stanford Woods Institute for the Environment published evidence that a sixth mass extinction is already underway. The researchers report that at the current rate of species loss, people will lose many biodiversity benefits within three generations.

These studies did not surprise Dave Foreman, author of *Rewilding North America*, who reports that “field biologists have been worried about population declines in thousands of species and by the loss of ecosystems... since the 1970s.” He quoted E.O. Wilson that the “current rate of extinction is 1,000 to 10,000 times the background rate of extinction in the fossil record.”

In his book, Forman states that humans are the cause of most extinctions. The five anthropogenic causes of extinction in the United States (in order of current importance) are habitat destruction, invasion by nonnative species, pollution, overexploitation, and disease.

According to Forman, “Exotic species can cause the extinction or imperilment of native species by predation, competition, or changing basic ecosystem structures of dynamics.”

The International Union for Conservation and Nature reports that “the specter of extinction hangs over about 41 percent of all amphibian species and 26 percent of all mammals.”

Invasive species compete with native flora and fauna for valuable resources and habitat. They play a large role in the loss of biodiversity.

Texas is a vast state that includes several major ecological regions. It is the second most biologically diverse state in the United States and is ranked third in the number of endemic species. However, more than 10% of the state’s species are considered rare or at risk of extinction.

How can you help? In San Antonio, you can join our group of dedicated volunteers to eradicate invasive plants. No prior experience is required. Sturdy shoes, long-sleeved pants and shirts, gloves and water are necessary. We have a supply of tools, but welcome anyone who brings their own. For details of exact location and directions, contact Lonnie at [lonnieshockley@satx.rr.com](mailto:lonnieshockley@satx.rr.com). Those on the mailing list will receive notification of the location of the eradication area and cancellation for severe weather conditions.

Tuesdays, March 1, 8, 15, 22 and 29 between 8:30 to 10:30 AM.

---

Correction: February’s article from Balcones Invaders included two photos, one of a Chinaberry tree and another of Balcones Invaders volunteers at work in the field. The former image was supplied by Ann Murray of the University of Florida; the latter was supplied by Balcones volunteer and Master Naturalist James Griffin.

# Alamo Area Chapter's Wildscape Demonstration Garden

*Change is the process by which the future invades our lives.* – Alvin Toffler

The Alamo Area Master Naturalist River Walk Wildscape garden at 333 S. Old Guilbeau began as a class project in 1997 for Class #2 when San Antonio Parks and Recreation (SAPAR) came to the Master Naturalists and asked if they would be interested in taking on a class project to beautify and create a Wildscape garden on an area of land along the San Antonio River just north of Durango, now Cesar Chavez. Class #2 accepted the challenge, and with the help of SAPAR and Texas Parks & Wildlife (TPWD) as well as donations from various nurseries around town, created a beautiful garden on the San Antonio Riverwalk. Our chapter has diligently maintained the garden for 19 years. It was recently mentioned in the February 23rd Rivard Report as an example to the community. Click here to read the article: <http://therivardreport.com/reimagining-the-san-antonio-rivers-south-channel/>

The land on which the garden was established is owned by San Antonio River Authority. A neighbor has approached the River Authority with an offer to buy the property. A staff recommendation to sell is expected to go to the SARA Board in March, and the sale is expected to be approved, with the new owners taking possession in late April or May. The potential new owners have plans to develop the lot. SARA has offered to fund our garden's relocation and rebuilding

if they sell the property. Judit Green (with TPWD), Patsy Kuentz, and Evelyn Penrod (both with AAMN) have been looking for another suitable public property for several months. Stay tuned, we will let you know how this story unfolds and where the changes take us. In the meantime, if you have a chance to get to the Demonstration Garden, please do so. There are winecups coming up this year, and the first bluebonnet of the season has just emerged. Enjoy the pictures.

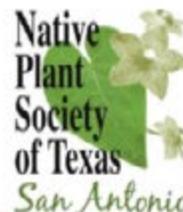

# Native Landscape Certification Program (NLCP) (AT)

Presented by

**Native Plant Society of Texas**

## Are you interested in:

- Learning about native plants for South Central Texas landscapes?
- Sustainable landscape design using native plants?
- Knowing the environmental advantages of native plants?
- Native plants to attract birds and butterflies and other pollinators?
- CEU hours for professionals in landscape-related fields?
- Texas Master Naturalist/Texas Master Gardener advanced training hours?

If you answered **Yes**, NLCP is designed for you!!!

## Spring 2016 Workshops in San Antonio

Each class includes a classroom session and an outdoor native plant knowledge walk.

Participants must complete Level 1 before attending Levels 2 or 3.

Completion Certificate provided at the end of the class. Competency Certificate issued upon passing an optional end-of-day test.

**Register online:** <http://npsot.org/wp/nlcp/>

### Level 1, Introduction to Native Landscapes. \$37 all registrants

- Monday, March 21, Phil Hardberger Park, Urban Ecology Center, 8:00 - 4:30
- ✓ Learn the value of including and preserving native plants in landscapes.
- ✓ Understand differences between sustainable and conventional development.
- ✓ Learn South Central Texas vegetation region and soil type.
- ✓ Learn 40 native Texas plants for your landscape and 5 exotic plants to avoid.

### Level 2, Planting Design with Native Plants. \$37 NPSOT members; \$52 non-members

- Saturday, June 11, Phil Hardberger Park, Urban Ecology Center, 8:00 - 4:30
- ✓ Learn to create landscape designs with regional native plants.
- ✓ Understand important considerations for creating a landscape design.
- ✓ Learn how to preserve native plants in the landscape
- ✓ Learn 45 native Texas plants for your landscape and 5 exotic plants to avoid.

### Level 3, Installation & Maintenance of Native Landscapes. \$37 NPSOT; \$52 other

- Friday, April 1, San Antonio River Authority Mission Road Operation Center, 8:00 – 4:30
- ✓ Illustrate visual differences between native and non-native landscapes
- ✓ Demonstrate installation of native plant landscapes
- ✓ Identify maintenance requirements, techniques and maintenance schedules
- ✓ Learn 45 native Texas plants for your landscape and 5 exotic plants to avoid.

[Type here]

Sponsored by San Antonio Chapter – Native Plant Society of Texas. For more information or for mail-in registration form, send a request to [nlcp@npsot.org](mailto:nlcp@npsot.org) or call Meg Inglis at 512-589-1316.
