#### General meeting notes

The meeting was called to order at 8:05 by VP Bruce Neville.

Bruce remembered Norris Jay Pritchard, Sr., Class of ??, who had passed away since our last meeting. There was an excellent turnout of Master Naturalists at his service. Bruce asked for a moment of silence in his memory.

Bruce mentioned that the quarterly hours report was due, and please get hours to Betty Vermeire asap.

Bruce mentioned that the Fall training class will begin in September.

Bruce mentioned that the North American Butterfly Association Fourth of July Butterfly Count will be held this Saturday, July 12. Meet at Lick Creek Park at 9:00 am, if interested. NABA requires that we collect \$3 from each participant. Prepare for hot Texas weather.

Door prizes were provided by Olivia Ash, Mike Connor, and Betty Vermeire, and were won by Cheryl Lewis, Charlene Lusk, and Janet Quiram.

Rick Laughlin mentioned the recently discovered Purple Martin roost near Texas Avenue and Southwest Parkway. The peak of activity is about half an hour after the end of the meeting, and he encouraged people to experience the spectacle.

Meeting adjourned at 8:20.

## **Greens Prairie Elementary Wildscape Garden Report**

Participants: Cheryl Lewis, Molly Harris, Denise Harmel-Garza (Cheryl's TAMU contact), Meleah Steelman (Greens Prairie Elementary teacher contact)

1. The meeting (Friday, June 13, 2014) took place at Greens Prairie Elementary School, 4315 Greens Prairie Trail, College Station, Texas. The most ideal spot would have been where there is already an existing garden with 2 small raised beds, benches, and a potting table. However, the school plans on putting portable buildings on this site.
2. The next best site is a rectangle between the first grade and kindergarten hallways.
3. Meleah Steelman planted the wildscape garden at Rock Prairie Elementary which we agreed to visit. Another suggested garden to visit was the St. Thomas Early Learning Center, 906 George Bush Drive, College Station, Texas 77840.
4. We agreed that the Principal will have concerns about sustainability and liability.

### **ForOurTo Do List:**

1. Contact the Principal, Donna Barrington, and let her know that we have a plan and 5 people have committed to the project. We will need her to help us outline steps for moving forward through the administration with our planning phase. We will also ask parents if they want to participate when school starts. Cheryl said that although planning may take some time, it will be time well spent.
2. Obtain blueprints of the school grounds and talk to the principal and building manager to understand the current use of the existing areas and future plans for existing areas.
- 3 Let the principal know that we would like to salvage what we can from the existing garden before portable buildings are put in that area.
4. Give the principal a copy of TPWD's [Creating a School Habitat](#). This will show her and other administrators that we have a guide for developing a plan and implementing its design. Molly also gave us TPWD's School Wildscape program info.

5. Meleah will be working to obtain a PTO grant and a College Station Education Foundation grant.

The next meeting will include a tour of the existing school wildscapes mentioned above. It will be scheduled for some time during the week of June 14-18.

Our own survey- I would suggest that we take a survey and see what technology or social media are used by our members. We will then focus and expand those technologies or social networking platform.

Survey Results: TBA

### **Maintenance:**

Medium maintenance. The blog runs whenever the main contact person writes an entry. This will occur as the contact person sees fit. Currently, the posts run about every two weeks. Research and writing may take some time but are not difficult (the time being the main reason maintenance is “medium”).
