

LET'S TACKLE TRASH!

Saturday, March 9 | Recreation Center at Rob Fleming Park
9 a.m. to 11:30 a.m.

Keep Texas Beautiful TxLitter Database Project

is focused on cleanups and audits of items collected - trash, litter, etc.

The results are reported into the database to inform more targeted messaging to help reduce the litter problem.

On Saturday, March 9, participate in a litter collection and audit to learn about the project, how to correctly conduct and report a litter audit, and then volunteer to continue doing the same activity in your own community, inviting neighbors, organizations, and groups to participate at sites you choose.

REGISTER TO ATTEND:

**The Woodlands Township
Environmental Services Department**
Invites you to participate in this
Volunteer Opportunity.
