

Check out our Website!

You will find the officers, committee chairs and contact info for them, all the forms you need, and check out the calendar! Toni Allison and Marie Miller have been working very hard to make sure that all volunteer and training opportunities, as well as any events that are coming up are posted on the calendar. Don't wait, check it out now.
Just go to txmn.org/lindheimer.

Free Native Plant Books for Tablets & Smartphones

Designed with interactive features for iPad, available in PDF files for use on other devices.

Four books are available:

1. **Common Texas Hill Country Forbs** - a supplemental reference for selected plants that are common throughout the Hill Country in a variety of habitats. For purposes of this book, a forb is a non-woody, herbaceous plant that is not a grass or a sedge.
2. **Lesser Known Texas Natives** - a supplemental reference for selected Texas Hill Country native plants that are not as well known as the more familiar wildflowers. These plants are not rare or endangered but are found in various habitats throughout the Hill Country.
3. **Hill Country Grasses** - a beginning guide to grasses common throughout the Texas Hill Country. This book covers both native and non-native species.
4. **Woody Plants of the Texas Hill Country** - an aid to identification of woody plants growing throughout the Texas Hill Country. Included are trees, shrubs, vines, and yucca-like plants. Covering both native and non-native species.

iPad Users: available on iBooks®

PDF Users: Requires PDF reader on tablet or smartphone.

Hill Country Chapter Members*

The TMN Mission

To develop a corps of well-informed volunteers to provide education, outreach, and service dedicated to the beneficial management of natural resources and natural areas within their communities. Many communities and organizations rely on such citizen volunteers for implementing youth education programs; for operating parks, nature centers, and natural areas; and for providing leadership in local natural resource conservation efforts. In fact, a short supply of dedicated and well-informed volunteers is often cited as a limiting factor for community-based conservation.

We meet on the third
Thursday of every month at 7
p.m. at the
Comal County
AgriLife Extension Office:
325 Resource Drive
New Braunfels, TX 78132-3775
Phone: 830-620-3440

We welcome anyone interested in the various guest speakers' topics and the Texas Master Naturalist program.

For more information about our chapter visit our new website which can be viewed at:
