

Giant Blue Salvia / MEDIUM

- ✓ To attract native wildlife, offer them *NATIVE plants*, a nursery, water, refuge.
- ✓ Do NOT use pesticides or fertilizers; the insect diversity natives attract provides these \$\$ services for FREE

Seaside Goldenrod / MEDIUM

- ✓ Use *taxonomic names* when shopping for natives; BEWARE of cultivars and plants labeled NATIVE which do not adequately nourish our wildlife!

Aquatic Milkweed / ALL OVER!

Cowpen Daisy / MEDIUM

Red Salvia / MEDIUM

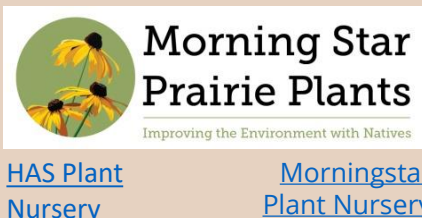

ANN = Annual (by seeding)

PER = Perennial (by roots)

Bloom Season = SPR - SUM - FALL

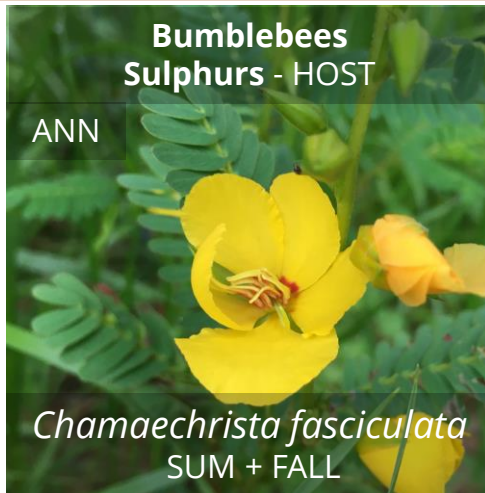

Feeds Larval Stage = HOST

Shannon Westveer, TMN CPC

Partridge Pea / MEDIUM

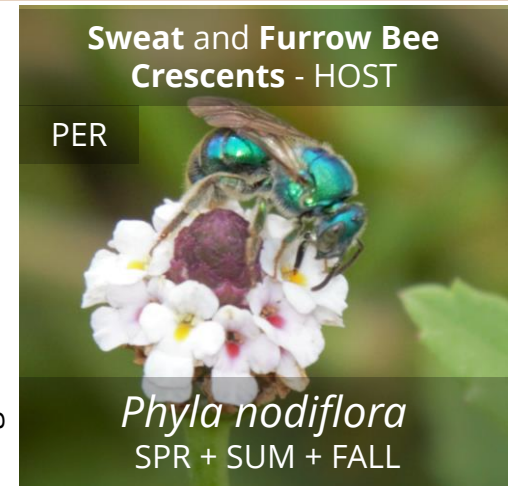

- ✓ Don't forget the *grasses*! They water and amend your garden, so you don't have to. Choose TWO species; plant in 3's among flowers. Coastal Prairie natives are a *community*.

Little Bluestem / MEDIUM

- ✓ Plant in 3's or 5's for each species for maximum wildlife attraction.
- ✓ For best wildlife viewing plant SHORT at the edges, TALL in the center, MEDIUM height in between.

Frogfruit / GROUND COVER

Blue Mistflower / MEDIUM

Plains Coreopsis / SHORT

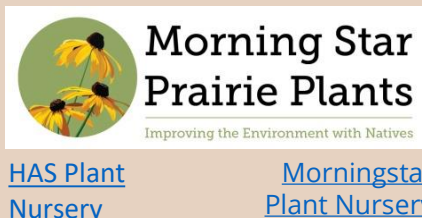

ANN = Annual (by seeding)

PER = Perennial (by roots)

Bloom Season = SPR - SUM - FALL

Feeds Larval Stage = HOST

Shannon Westveer, TMN CPC

Firewheel / Blanketflower / SHORT

- ✓ Choose 2-3 flower species that will bloom from SPR (Spring) and SUM (Summer), 2-3 more that bloom FALL (autumn) for continuous bloom cycle.

Yellow Indangrass / MEDIUM

- ✓ Keep the edge of your garden tidy so it looks intended, not untended.
- ✓ Winter is for resting; insects will over-winter, birds will eat the seeds.

Purple Passionflower / VINE

Late Blooming Boneset / TALL

American Basketflower / TALL

ANN = Annual (by seeding)

PER = Perennial (by roots)

Bloom Season = SPR - SUM - FALL

Feeds Larval Stage = HOST
