

Butterfly Retreat Mix Seed

*Thank you for purchasing Butterfly Retreat Mix Seed.
Host a party for butterflies at your place!*

What you need to do is: select a well drained sunny area, clear your planting location, scatter your seed in loose soil to ¼" and rack smooth. If seeding into an existing grassy location, scalp and remove thatch, scatter seed on soil like 'feeding chickens' then lightly rake. Let it rain or water your seeds properly as needed. Do not apply fertilizer. Let these native annuals and perennials will do the rest! Then, next spring your Butterfly Retreat will invite your guests to feast on nectar and Color throughout the season. Your packet contains a beautiful mix of species that will host butterflies in each phase of their life cycle. This seed mix provides many pollinators their favorite food and will provide you with continuous blooms!

Note: some seed takes up to 2 years to establish. E-mail: milanojunctionmemorialgarden@yahoo.com
