Chapter Meeting after Presentation

President Report (Sue Ann Kendall):

- We are still in the red category, which means our meeting and volunteer opportunities are severely limited. Current [guidelines](#) last until January 21.
- We will get all the certificates and name tags out to our new members as soon as the COVID issues in Cameron die down a little. This was suggested by AgriLife when I called.

Vice President Report (Donna Lewis): Upcoming Chapter Meeting presenters and other topics. Monique Reed is coming to speak in March, miniature wildflowers. Bobby Alcorn will speak in April.

Secretary Report (Sue Ann Kendall): Approve November minutes. Remember to send Sue Ann items you want to discuss at Chapter Meetings. Move to approve: Don Travis, Seconded by Pamela Neeley.

Treasurer Report (Michael Conner): Have you paid your dues? Mike will report on our 2020 finances. \$5124 to start 2020. Income \$3025, spent \$3002. We had 5146 at the end. Other than books for the students, advertising was our biggest expense. The plan is to not do so much of that. The other big expense was printing the brochures, which was very worthwhile. Mike pointed out that we tend to hover at around \$5,000. If we have needs for equipment, etc., we have money to spend it. 34 people have already paid their dues!

Committee Reports

Communications: Don Travis. Send Don your email announcements, and send Sue Ann blog articles. Check the blog for snow photos. Don will now send AT opportunities he gets in emails to Pamela to approve, so the process will be simpler. Agreed.

Host: Sherry Colley. We are storing all the Master Naturalist items safely at the Hermit Haus. If anyone needs anything, Sue Ann can put them in the carport to be picked up.

Membership: Lisa Milewski.

Old Business:

- Canceled class event
- Mask order and lanyard – Mike will send an email out to collect orders.
- Joyce Conner has a reasonable number of brochures, but hasn't distributed them because of COVID.

New Business:

- Joyce Conner: Storage of chapter materials in a central location. A Chapter storage building? Or rent a storage room.

Nature Stories:

- Snow stories are on the blog.
- Catherine Johnson has an African nature story about the Green Wall. 5,000-mile wall across the continent.
- Donna still has hummingbirds.

- Eric Neubauer says the snow and rain got cotton rats all excited. He had 8 of them eating by his back door. He also saw feral hogs (2 boars and maybe 12 others) in the middle of the day going from one forest area to another across the street.
- Lisa had a question about the CoCoRaHs rain gauge and snow. Linda Jo says to think ahead and take the funnel and inner cylinder out, then bring it in the house to let it melt., then measure it in the cylinder. You can also convert inches of snow to rain. Not much rain to a lot of snow.
- Pamela's friends in Georgetown reported purple martin scouts already.

Adjourn: Donna moved to adjourn. Carolyn Henderson second.
