

RYAN BLANKENSHIP – TEXAS PARKS AND WILDLIFE

Ryan Blankenship is a Certified Associate Wildlife Biologist® and USFWS, TPWD, and ODWC permitted biologist at Cox|McLain Environmental Consulting Inc. A background in wildlife conservation and management contributes to his understanding of a broad range of ecological assessments and surveys, including, but not limited to, game and non-game species management, threatened and endangered species surveys, Migratory Bird Treaty Act compliance, wetland delineations, USACE permitting, and NEPA compliance and processing. He is also skilled in environmental report preparation, GIS processing, and project management. Mr. Blankenship has worked on numerous local, state, and federal environmental permit applications for transportation infrastructure, water/wastewater infrastructure, electric transmission, renewable energy generation, residential/ commercial/industrial development, military installation, and wildlife management projects.
