From the President

Sheri Wilcox

It was a pleasure seeing everyone at our September meeting. We heard from Mikayla Killam who provided us with the latest information on feral hog control. One of my favorite parts of her presentation was her introduction explaining the history and genetic makeup of feral hogs. We also had the opportunity to speak with the fifth scholarship recipient, Laura James from Fayette County.

Join us for our next **chapter meeting**, which will be held **November 19, 2022, at the Fayette Public Library in LaGrange**. Our advanced training speaker will be Mark Lange talking about Dove Management in Texas.

Fall is a great time to get outside and volunteer at one of our projects or attend an advanced training program. Here are just a few of the many upcoming opportunities:

- The **TMN Annual Meeting** will be held **October 20 -23, 2022 in Houston**. The annual meeting is a great opportunity to meet master naturalists from across the state, get personalized tours of many local conservation sites, and hear from wonderful speakers. If you were not able to register to attend in person, virtual registration will be available through the end of the meeting.
- The Gideon Lincecum chapter will host a **Landowner Summit on November 10, 2022**. We will have a full day of interesting speakers. This is also a great opportunity to get your CEUs if you have a pesticide applicator license.
- Mark your calendar for our **Volunteer Appreciation Event on December 11, 2022**. We will have a potluck meal and celebrate our accomplishments for 2022.
- Get involved with our educational programs. Our Education Director Karen Gardner needs your help to identify existing resources and to develop new ones. If you have any educational resources in your

Index to Newsletter Articles

The *GLC Tidings* chapter newsletters are full of educational articles on a wide variety of subjects so we have provided an index of the issues from 2018 through the current issue. For each article, the index cites the subject, title, author, and the hyperlink directly to the issue published on this website. If you download the Word version of the index, you can use the Find feature in Word (under the Editing tool) to search for a subject of interest. You can also position your cursor at the top of any of the columns so that column is highlighted then sort the whole table by that column (use the AZ sort icon in the Paragraph tool area). If you prefer, you can download the PDF version of the index which is presorted by subject.

Chapter and Board Meeting Minutes

Posted on website

The screenshot shows a web browser displaying the website for the Gideon Linecum Chapter. The page has a green header with the Texas Master Gardener logo and the chapter name. Below the header is a navigation menu with links for Welcome, What We Do, Join Us, Members Area, What's New, and Events calendar. The main content area features a large heading for "Meeting Minutes" and three sections: "Chapter Meetings", "Board Meetings", and "Chapter and Board Meeting Archives". Each section provides information about meeting schedules and includes links to YouTube recordings of past meetings.

Meeting Minutes

Chapter Meetings

Chapter meetings are generally held on the 3rd Saturday of odd-numbered months (that's every other month). They usually start at 9:30 a.m., but location and time may vary. Please check the Events listing on this website for upcoming meetings. Following the business meeting, we usually have a presentation on a special topic. That program is free and open to the public and counts for Advanced Training hours (AT) for members of the chapter. All members are encouraged to attend our chapter business meetings and the AT program that follows.

Board Meetings

Chapter Board meetings are open to all members and are generally held the end of the month prior to the chapter meeting. Please check the Events listing for exact dates and times.

Chapter and Board Meeting Archives

Recordings of our virtual chapter meeting for July 2020 are available for viewing on YouTube:

State Website

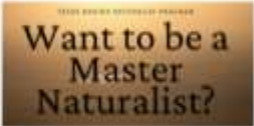

<http://txmn.tamu.edu>

The screenshot shows the homepage of the Texas Master Naturalist Program website. The header is green with the text "TEXAS" in large letters, "Master Naturalist" with a dragonfly logo, and "Texas Master Naturalist Program". It also features logos for "TEXAS A&M AGRILIFE EXTENSION" and "TEXAS PARKS & WILDLIFE", along with social media icons for Facebook, Twitter, Instagram, and YouTube. A navigation menu includes "Home", "About", "Events", "Naturalist News", "For Chapters", "2023 Annual Meeting", and "#TMNTuesdays".

The Mission

The Texas Master Naturalist Program's mission is to develop a corps of well-informed volunteers to provide education, outreach, and service dedicated to the beneficial management of natural resources and natural areas within their communities for the State of Texas.

Many communities and organizations rely on such citizen volunteers for implementing youth education programs; for operating parks, nature centers, and natural areas; and for providing leadership in local natural resource conservation efforts. In fact, a short supply of dedicated and well-informed volunteers is often cited as a limiting factor for community-based conservation efforts.

Chapter Facebook Group

<https://www.facebook.com/groups/TMNGideonLincecumChapter>

- Public can view
- Members can post
- Site is moderated

This screenshot shows the top portion of the Facebook group page. At the top, there is a search bar and navigation icons. Below that, the group name "Texas Master Naturalist - Gideon Lincecum Chapter" is displayed with a "Public group" label and "248 members". A green "+ Invite" button is visible. The main content area features a large photo of several turtles resting on a log in a pond. Below the photo, the group name is repeated, followed by tabs for "Discussion", "Media", "Files", "Guides", "People", and "Posts". A text input field for posting is present, along with icons for "Check In", "Photo/Video", and "Feeling/activity". On the right side, there is an "About" section with the group's mission statement and visibility settings.

This screenshot shows a post within the Facebook group. The post is from "Lori Bufum" and is titled "One of my favorite natives and beloved of native bees. Everyone should have one in their garden!". It features a close-up photograph of a bumblebee on a blue wildflower. Below the photo, there is a link to "WILDFLOWER.ORG" and the text "Wildflower of the Year 2023 - Lady Bird Johnson Wildflower Center". The post has 1 share and is seen by 21 people. There are options to "Like", "Comment", and "Share". Below the post, there is a comment from "Judith Deaton" that says "Really?". To the right of the post, there are sections for "Topics in this group" (pinned post: #administration), "Chats" (Landowner Summit), and "Recent media" (a grid of four photos).

Lori Bufum shared a link.

One of my favorite natives and beloved of native bees. Everyone should have one in their garden!
