Training Report: Registration for the 2026 training class is active on-line. So far 5 applications have been received.

New Business: There have been some issues with members receiving the google group e-mails. If individuals are not receiving the e-mails then contact Chris Morrison and she can check if individuals have been dropped from the list inadvertently.

A question was raised regarding what information needs to be retained by project leaders and members of project teams. This policy should be reviewed and then clearly disseminated to the chapter.

The second half of the business meeting was adjourned at 11:32 p.m.
