Comments:

Impact of Chapter Projects

Acreage Impacted

The total acreage impacted through **NEW** chapter projects conducted throughout the reporting period. (This includes prairie restorations, wildscapes, landowner management plans/consultations, park enhancements and restorations initiated for the first time during the reporting period). Note: Report only the actual acreage your chapter's projects had an affect on. For example, your chapter may have conducted a prescribed burn on 100 acres within a 1,000 acre park. Using this example, you would report the 100 acres you actually changed/alterd—NOT the 1,000 acres of the park.

Please list the project/property title(s) and location(s):

Trail Miles Impacted

Total miles of trails developed or improved through **NEW** trail maintenance or development projects (initiated for the first time) during the reporting period.(You may be as accurate as to the nearest tenth of a mile)

Please list the project/property title(s) and location(s)where this new trailwork has been conducted.
