Mission. *To develop a corps of well-informed volunteers to provide education, outreach, and service dedicated to the beneficial management of natural resources and natural areas within their communities for the State of Texas.*

MEETINGS

Guadalupe Master Naturalists Monthly Program and Meeting

Date: Monday, August 27, 2018

Time: 6:30 - **Social Time:** Bring your favorite treat to share. Drinks will be provided. Earn *volunteer time* by assisting in the pre-meeting room set-up and/or helping with the after meeting clean-up!

Please contact [Tonya Harker](mailto:Tonya.Harker@icloud.com) and volunteer to help with the refreshments. Contact her at hark210@icloud.com or 210-860-8608.

7:00 - Program – Lenny Scott from the Irma Lewis Seguin Outdoor Learning will speak on marine and fresh water turtles.

Location: AgriLife Extension, 210 E. Live Oak, Seguin, TX 78155

Discover Committee – Bug's World Activities

Date: Monday, August 27, 2018

Time: 5:30 PM

Location: AgriLife Bldg., upstairs kitchen

Description: Planning meeting for those participating in the Bug's World activity on September 10. Gayle Temple will demonstrate some of the games used with the children during this program.

If you will be helping with Bug's World, please attend.

VOLUNTEER OPPORTUNITIES

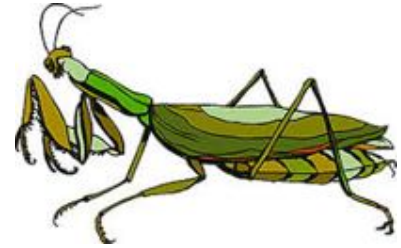

Discover a Bugs World

Date: Monday, September 10

Time: 2:00 PM – Home-schooled students [pending]

4:00 PM – After-school children

Description: Children will explore concepts on insect structure and life.

Leader: Gayle Temple; contact information 303-249-3307 or gmarguer@gmail.com

Sign-up opportunity at the August meeting.

Location: Seguin Public Library, 313 W. Nolte St., Seguin

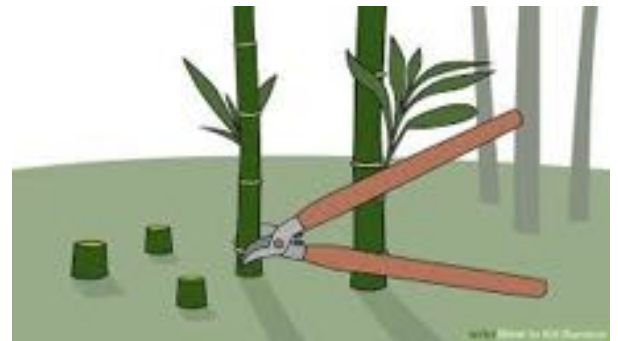

Hot Dog Days with TLU Students at Park West

Date: Saturday, Sept. 8, 2018

Time: 8:00 AM – 12:00 noon

Location: Meet in Splash Pad parking lot

Description: GMN will host about 15 TLU students volunteering with Hot Dog Day. They will be cutting and hauling the last of the bamboo in the southwest corner of Park West and doing some weeding in the pollinator garden if they are efficient with the bamboo. We need 2 – 5 people to help organize and work with the students.

Bring loppers; if you have extra loppers you would be willing to share please bring them as well. Wear closed-toes shoes or boots. Long sleeves, insect repellent and sunscreen are recommended. Water will be provided.

ADVANCED TRAINING OPPORTUNITIES

Texas Outdoor Education Association Annual Workshop

Date: Friday, Saturday, Sunday , September 28 – 30, 2018

Location: Echo Valley - HE Butt Family Foundation, Leakey, TX

Description: The Texas Outdoor Education Association (TOEA) is a non-profit education community that promotes bringing the outdoors into our classroom and to the world. TOEA offers an annual Fall Workshop where educators from across Texas can share ideas with one another.

Our mission is to be an organization of individuals and groups with a common interest in outdoor education working toward the attainment of an appreciation, understanding and wise use of the total environment by all people.

You can find more information about our organization at www.toea.org

We hope you consider attending as a presenter or a participant! Some of the previous workshops have included sessions such as these listed below. We do offer TEEAC credit for sessions that you attend.

-Kayaking

-Flower pressing and identification

-Nature hike and journaling

-Aquatic sampling

-Camp cooking with Dutch ovens-Fly fishing

-Photography -Ziplining

-Geology/Fossils

-Entomology - Astronomy

You will need to pick and choose those sessions that support the Master Naturalist program goals to satisfy Advanced Training requirements. Submit to Advanced Training Committee for approval.

Cost: \$140.00 + \$20.00 [membership to TOEA]

Registration Deadline: August 15, 2018

Website Information: <https://www.toea.org/2018-workshop-information/>

30 YEARS
140 City Park Rd.
Boerne, TX 78006
(830) 249-4636

Join us for our Texas Master Naturalist Program Annual Meeting to gather, learn and celebrate our 20th Anniversary. This year's event will kick off Friday October 26th and run through the weekend to October 28th, and is being hosted at the Sheraton Georgetown Hotel and Conference Center.

This year's agenda is PACKED with over 150+ sessions – more than we've ever had before! The Annual Meeting Agenda is linked below. Please note, all agenda items are tentative at this time, except for meal times. As in years past, registration includes signing up for technical sessions and field session attendance as many of the classrooms and space available on the field sessions is limited. Please prepare before registering with your preferred attendance at sessions. Our field sessions typically fill up very quickly!

As an added BONUS this year, we have 30 – THIRTY – off site field sessions throughout the Georgetown and surrounding county areas. These are all in ADDITION to our typical concurrent technical session happening on site at the Sheraton Georgetown throughout the weekend. These field sessions are scattered from Thursday through Monday and we have developed a "Get Outside Guide" to be used for learning about these unique opportunities. All sessions contained in this guide will require pre-registration through the event registration page once live. Highlight your preferences now! *Note – not all of the field sessions count for Advanced Training or have transportation provided. Pay special attention to the key on the pages to see whats included or needed for each session.

Registration is **NOW OPEN!**

Go to the website for information: <https://txmn.org/2018-annual-meeting/>

Drawing for \$75.00 scholarship given by the state office will be held at the August Chapter meeting! If you are planning to attend the Annual Meeting, you will want to enter the drawing.

Watershed Protection and Re-Vegetating Geronimo Creek
Guadalupe County Native Plant Society

Date: Tuesday, September 11, 2018
Time: 6:30 PM – Refreshments/Social
7:00 – Program
8:00 – Business Meeting

Description: Cattle production, row crop horticulture, and growing urban areas severely affect our watershed. Even surviving native plants are impacted by excessive nutrient enrichment and elevated nitrates due to rainwater runoff from these areas.

Our watershed must be protected by limiting pollutants, removing invasive plants and wildlife, re-vegetating with natives, and supporting projects like the Irma Lewis Seguin Outdoor Learning Center with its rainwater harvesting, vegetated swales, native grasses, a rain garden, a detention pond, pervious pavement, and educational creek walks.

Our friend **Ward Ling** is an extension program specialist with Texas A&M university, serving as the Geronimo and Alligator Creek Watershed coordinator. He directs the efforts of landowners and local volunteers from NPSOT, Master Naturalists and Master Gardeners. Come and learn more about this essential work, and how we can help, from this devoted expert.

Location: St. John's Lutheran Church, FM 465, Marion, TX
