

March 2023 Newsletter

The New Class Committee has been hard at work preparing a fertile field for the upcoming crop of new trainees. We have selected only the finest purveyors of naturalist knowledge to produce a bountiful harvest of freshly grown volunteers. Planting day is scheduled for August 19th and the harvest celebration will occur November 11th.

We are currently searching for “Zoom Guides” to assist with breakout rooms during Wednesday evenings 5:30-9:pm. Contact classrepresentative@hillcountrytmn.org or newclasdirector@hillcountrytmn.org for more information.

February 2023 Newsletter

The New Class Committee is excited to announce that applications for the Fall 2023 class are now available online at <https://txmn.org/hillcountry/become-a-member-of-the-class-of-2023/>. Also, a draft of the class schedule is available.

The format of the class differs from years past. The content remains the same, as does the textbook. A host of distinguished regional and statewide experts are scheduled to present. Switching to this new format incorporates Wednesday evenings (5:45-9pm) via Zoom with Saturday field trips. There will also be class presentations at most of the field trip sites. More details will appear over the next few months in this publication.

Hats off to a hard-working and enthusiastic New Class Committee whose volunteer hours are creating a truly meaningful and memorable induction to the Texas Master Naturalist program.
