
Aquatic Ecology:

The science and management strategies driving watershed and aquatic habitat conservation in Texas

Megan Bean

Native Fish Conservation Coordinator
Senior Scientist
Texas Parks and Wildlife Department
Inland Fisheries
Megan.Bean@tpwd.texas.gov

Megan is the Native Fish Conservation Coordinator and a Senior Scientist with the Inland Fisheries Division at Texas Parks and Wildlife Department. At TPWD, she oversees the conservation, management, and research of native fish throughout Texas. She also oversees a research grant program; works collaboratively with university and other partners to answer research gaps and questions; and provides technical guidance on conservation best management practices to benefit native species and aquatic habitats.
