

## Usage Info

# Texas Master Naturalist Hill Country Chapter Approved Volunteer Projects List

### Overview:

This Excel workbook was created to help members find volunteer projects and the project coordinator. There is also a PDF version.

Each tab shows the approved projects by the County they are located in.

### The Nitty Gritty Stuff:

Basically, you select a County you are interested in and review the project descriptions to see what type of work is involved. If you are interested in the project, let the contact know.

**Tip:** Keep an eye on the Chapter Calendar posted on the website. Volunteer opportunities are shown in green. Click on the event and all of the details will be shown, including the project VMS CODE. The calendar also has a search feature you can use. Just enter the county in either of the search fields.

**Chapter Projects** cover our meetings and Board/Committee work.

**Cross County** projects cover the entire 10 county service area of our Chapter.

**Tip:** When creating the PDF version, hide columns C, E, G, and H. This makes it easier to read.
