

Bastrop Annuals and Perennials  
As of February 15, 2014

This checklist of the vascular plants of Bastrop County is primarily based on the collections in the herbarium at the Plant Resource Center (PRC), University of Texas, Austin. Additional records were added from the USDA files, historic plant lists from Bastrop and Buescher State Parks (including the Stengl Research Station), recent McKinney Roughs Natural Area bio-surveys, and from the Bill Carr post-fire survey in 2012.

Special codes used: **asterisk (\*)** USDA, **percent (%)** Bill Carr, **pound sign (#)** added to the PRC from surveys.

Rare plants listed from **Rare Plants of Texas** by Poole, et.al. are indicated with an **exclamation point (!)**.

New Biota of North America (BONAP) modern family names have an **ampersand (&)**.

**Species marked in bold are listed on the Texas Department of Agriculture Noxious Weeds list, on the USDA list, or Introduced.**
