*Dates are subject to change due to weather conditions

Please mark your calendar with these dates. A notice with registration and class information will be posted approximately 2 weeks before each class. There is no fee, however students must be registered to participate in a class.

The Acton Nature Center Homeschool Program is a Master-Naturalist led 2 hour program held on the first Friday morning of each month during the academic school year. Families are invited to explore the ANC with their children and participate in a class led by Rio Brazos Master Naturalists. Students participate in hands-on science, art, and nature education outdoors at the Acton Nature Center. Each month a new topic is explored which encourages youth to get outdoors and explore the natural world.

Due to COVID-19, classes may be modified to follow the Texas Master Naturalist guidelines for group activities.
