

Going Solar – A Homeowner's Experience

ANC Community Lecture Series

Jan 7, 2024 2 pm

The decision to install a solar system is complex and intimidating. How big? What about batteries? What will it save? What about grid loss protection? A homeowner will answer these and share his first year's experience. This is not a sales pitch.

This lecture is presented by Dave Moore, a Texas Master Naturalist™ and a solar homeowner.
