President's Message

"You have brains in your head. You have feet in your shoes. You can steer yourself any direction you choose." ~ Dr. Seuss

Do you ever think about trying something new, and then talk yourself out of it? Do you think that you are too old or too young for something, or not strong enough, or let fears of "what if this or that happens" drive your decision process? Maybe you don't sign up for a class when you already have all your AT hours for the year? I can honestly say "I've been there." I'd like to encourage you to take that leap and do something just for yourself.

There are NUMEROUS opportunities for training, for classes and activities in our area. Take a look at the calendars for the Brazoria County Parks Department, Gulf Coast Bird Observatory or Sea Center Texas. Browse through the courses on the AgriLife Learn website. Look at the meeting schedules for local organizations such as the Native Plant Society of Texas (NPSOT), "Keep Pearland Beautiful" and the Brazoria County Master Gardener Association. Attend a "TMN Tuesday" livestream or even the TMN Annual meeting. Many events and courses are FREE while others can be a bit pricey. You have to plan and make choices in some cases. This year I'm forgoing other vacations and activities in order to attend the Annual meeting.

I really encourage you to take advantage of what's offered in our area. Last month, I participated in two days of kayak training offered by Sea Center Texas, and led by our TPWD Chapter Advisor, Jordan Kieffer. Dave Brandes and David Heinicke were also part of the training team. When I read the course outline, I seriously thought about backing out. "I'm too old for this" started to set in. But then I thought about my need to know more about safety in the water, especially since my grandkids are getting old enough now to kayak with their Nana. ***Reason beat out the fear of failure. A huge thank you and kudos to Jordan and her team*** – there was no pressure on the time to complete a task, which made it mentally easier for me to keep trying and successfully complete the exercises. My technique in getting back in my overturned kayak may not have been pretty, but I did it. I got a bit bruised, but I'll take the feeling of accomplishment over the pain of a few bruises any day.

Continued next page...

Presidents' Message continued from page 1...

My hope for each of you is that you will pursue something new for yourself. Whether it's a new craft or a musical instrument or a potentially difficult course, don't let the fear of failure keep you from following your interests! Your brain will thank you!

Please plan to attend our September 10th Chapter meeting at 6 pm, social time at 5:30 pm. Our presenter will be Karin Saucedo with Project Coyote. We will also have yummy treats from the Brazoria County Library System as a "thank you" for your help with the Summer Library programs. I hope to see you at AgriLife, and BRING A FRIEND!!!

Thank you for all you do for our area, and see you soon, OUTSIDE!!!!

Kathy Pittman

Ours is not the task of fixing the entire world all at once, but of stretching out to mend the part of the world that is within our reach. ~ Clarissa Pinkola Estes

September Chapter Meeting

The September 10th General Meeting will be a hybrid:

Attend in person at the Texas AgriLife Extension Service, 21017 County Road 171, Angleton, TX, or virtually via e-mail invite. Visitors and guests are welcome.

5:30 – 6:00 pm	Social Time and Refreshments
6:00 – 6:15 pm	Welcome and Awards
6:15 – 7:15 pm	Speaker: Karin Saucedo Advanced Training: Project Coyote
7:30 – 8:00 pm	General Membership Meeting (Hours for Volunteer Time (VT) TBD at close of meeting)

Karin is the Texas State Coordinator at Project Coyote. In this role, she helps to expand the organization's core programs and campaigns throughout Texas. Karin is a published wildlife conservation photographer born and raised in Dallas, Texas. She is especially passionate about wild canids and felids and uses her images to give wildlife a voice.

For over a decade, Karin has been involved in animal rescue, rehabilitation, outreach and advocacy. She spends a lot of her time studying animal behavior remotely through camera traps.

Karin's images have been used to educate communities about coexisting with urban wildlife, document wild canid field research and create awareness about the problems with exotic animal ownership. Most recently, Karin was published in the book accompanying the film "[Deep in the Heart: A Texas Wildlife Story](#)" by Ben Masters and also "[Wild DFW: Explore the Amazing Nature Around Dallas Fort Worth](#)" by Amy Martin. Outside of Project Coyote, Karin holds a degree in advertising and photography from Southern Methodist University. She is a certified [Texas Master Naturalist](#) and works with several non-profits. Karin serves on the Advisory Committee for [Texas Native Cats](#), an organization focused on education, advocacy, outreach, and improving the lives of threatened Texas felines. She is a Senior Volunteer at [In-Sync Exotics](#), and the Texas Outreach Representative for [The Canid Project](#). Additionally, she is a Partner Photographer for [Panthera](#), where her images are used to help support the conservation of the world's 40 wild cat species and their ecosystems. Karin co-founded [Song Dog Watch](#), an organization in the Dallas/Fort Worth metroplex where she and her husband help local communities understand coyote behavior and how to coexist safely with them. They collaborate with wildlife rescues and municipalities in North Texas, providing support and expertise on issues involving coyotes, foxes and bobcats.

Save the Date!
Year!

2026

Next year our Cradle of Texas Chapter will celebrate 25 years! How should we commemorate it? Please share your ideas with Kathy Pittman on ways to celebrate our 25th Anniversary and YOUR accomplishments throughout 2026!

Fall Intern Class

The Fall Intern Training will open on September 6th with an Orientation Session beginning at 9 am.

Sessions will be held Wednesday mornings with some Saturday sessions.

Contact [Barbara Whaley](#) if you can assist with any sessions.

[FALL INTERN
CLASS SCHEDULE](#)

It's time to
get your
Hummingbird
feeders out!

1 part sugar
4 parts water
Refill with fresh
nectar every 2 days
during our 80° - 90° Days

COT Members answer the question...

What is your favorite thing about being a Master Naturalist?

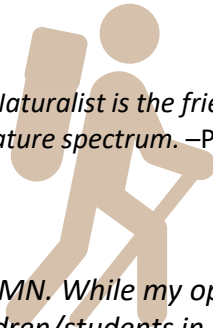

*My favorite thing about being a Master Naturalist is the **opportunities** to learn while giving time to my community and its natural environment. -Larry Peterson-*

My favorite thing about being a Texas Master Naturalist is the opportunity to share the love of nature and environment with others in this great county and state. So many opportunities to learn, explore, & share! -Jimmy Salinas

My favorite thing about being a Master Naturalist, it is the enhanced awareness that it has instilled in me. I am so much more attuned with my surroundings than I was before. -Scott Brown

My favorite thing about being a Texas Master Naturalist is the friendships I've made with Chapter Members, as well as sharing and gaining knowledge across the nature spectrum. -Patty Brinkmeyer

A few of my favorite things about being a TMN. While my opportunity availability is low, I would say having opportunities to help the young children/students in our area experience nature in a way they may not have access to otherwise. Secondly, having a front row seat to witness the excitement and joy (in young and old alike) that TMN and partner organization experiences provide for the community. -Shara Jane Marcy

My favorite thing about being a TMN is the community of like-minded individuals. We all love nature in some form or another and it's great to see how together we span an entirety of interests. I also love that we are all working towards the same goal of spreading knowledge within our community. -Emily Matula

I love being a part of the Master Naturalists, because I can learn about and preserve our natural ecosystems. -Nicole Lochmann

2025 FALL FIELD DAY

"Revive and Restore"

Wednesday, October 8, 2025

8:00 am - 12:30 pm

Gulf Coast Bird Observatory

299 Hwy 332 West, Lake Jackson, TX 77566

8:00 - 9:00 am

Intern Certificates (belated):

Kathy Pittman; President, Shara Jane Marcy, David Skweres, Betty Skweres

August Beach Sweep

Were we in the Bahamas?! That was a comment from a family friend's visit to Surfside yesterday as the surf was calm (flat as a table) and the blue water was all the way to the wrack line!

The same could be said for Quintana Beach, as we conducted our August Beach Sweep with support from the fine people of Quintana! Oh man we covered a little over a mile of beachfront and with a group of 24 we made an impact for the better! Thanks to the City of Quintana, we had plenty of water, breakfast kolaches and door prizes at the end, that just added to the success of the day!

Blessings,
Jimmy & Luanne

 Ocean Conservancy

**Thank you for cleaning up with
*Clean Swell!***

Here's a summary of your recent cleanup:

Date	August 04, 2025
Duration	1 hours 38 minutes
Number of People	24
Weight of Trash Picked Up	185.3 lbs
Group Name	Team Q
Distance Covered	1.3 Miles

Your cleanup makes a difference! Thank you for being part of a global community, identifying ocean trash and helping find solutions. Check out what others are cleaning and more ways to get involved at <https://oceanconservancy.org/trash-free-seas/international-coastal-cleanup/icc/>. (Reprint courtesy of Ocean Conservancy)
