## President's Message

***"The old year is worn and tired. Time now to kiss it goodbye. Take with you its wisdom – the authority and the power of all you have learned. Remember the past year with love, but let go of its despair. Live the year that lies ahead with fresh energy and hope. Be strong, have courage. It is time now for something new"***  
~ Unknown

Happy New Year 2026! I hope that you all had time over the holidays to rest and renew your body, visit with friends and family, and take time off from your "day to day" schedule. While I enjoy the holidays, I long for my "usual schedule" and am looking forward to getting back to my "normal routine"!

How will you remember 2025 and how do you plan to navigate 2026? With everything that vies for our attention, consideration, and time, how do we prioritize what truly matters to us? It is hard to tune out the noise and look at our world with clear vision. January 6<sup>th</sup> is traditionally known as Three Kings Day or the Epiphany, when the Magi visited the Infant Jesus in Bethlehem. The wise men followed the star for some time and finally arrived at their destination. In our Master Naturalist roles, we have many wonderful role models who have led the way before us. Perhaps we read about Aldo Leopold and John Muir or followed the work of Jane Goodall and many other inspirational environmental heroes. Whose "star" will you follow in 2026?

While scanning the daily news blogs, I came across a reference to a research paper that identified "biophobia" or "a fear of nature" as a "new threat" to mental health, as well as to conservation efforts. How is it that this is considered "new"? As Master Naturalists, we work very hard to bring the outdoors to the public and make it understandable. By successfully interpreting and sharing information about our natural areas and about native species and their habits, we encourage the public to have empathy for and to care about Nature around them. We've been educating against "biophobia" for years, and we will continue our work in 2026!

Our next meeting will be on January 14<sup>th</sup>, at 6 pm at AgriLife. Member Barbara Whaley will speak on "Entomophagy – the Art of Eating Insects." We will also thank our outgoing Board Officers for their service and welcome our new Officers and have a "2025 in review" I hope you will join us!

Thank you for all you do for our area, and see you soon, OUTSIDE!!!

Kathy Pittman

***Ours is not the task of fixing the entire world all at once, but of stretching out to mend the part of the world that is within our reach.*** ~ Clarissa Pinkola Estes

# January Chapter Meeting

## The January 14<sup>th</sup> General Meeting will be a hybrid:

Attend in person at the Texas AgriLife Extension Service, 21017 County Road 171, Angleton, TX, or virtually via e-mail invite. Visitors and guests are welcome.

5:30 – 6:00 pm	Social Time and Refreshments
6:00 – 6:15 pm	Welcome and Awards
6:15 – 7:15 pm	<b>Speaker: Barbara Whaley</b> <b>Topic:</b> Entomophagy: the practice of eating insects 
7:30 – 8:00 pm	<b>General Membership Meeting</b> <i>(Hours for Volunteer Service (VS) and Advanced Training (AT) TBD at close of meeting)</i>

Barbara Whaley is a graduate of the Spring 2023 intern class of the Cradle of Texas Chapter. She loved the training she received so much that she became the Intern Training Director for the Spring and Fall 2025 classes and plans on training a new group of interns in the Fall of 2026. Prior to jumping in with both feet, she worked for the Alvin Independent School District as a junior high teacher's aide and then in the Human Resources Department. Barbara states that she is living her best life and that this is the best thing she has ever done for herself and for others, as the love of nature and volunteering runs through her veins.

Barbara is a member of Gulf Coast Bird Observatory; Houston Audubon Society; Texas Ornithological Society; Native Plant Society of Texas and Friends of Brazoria Wildlife Refuges (FOBWR) where she is the volunteer coordinator for Migration Celebration. She volunteers at Brazoria National Wildlife Refuge during the Winter and Spring Break Open Houses and for the Discovery Environmental Education Program (DEEP) and Gulf Coast Bird Observatory's Extreme Hummingbird Extravaganza and Spring Fling. She is also very active with the Gulf Center for Sea Turtle Research where she is part of the Sea Aggie Turtle Patrol and Sea Turtle Rescue and Recovery Team.

February Speaker: Maureen Wilde - Sea Beans

# 20<sup>TH</sup> ANNUAL HOG-WILD HOLIDAY FEAST

On December 10, Chapter members gathered at the home of Ed Barrios for the annual Hog-Wild Holiday Feast. We all waited patiently for the hog to come off the pit, but it was worth the wait. The spread turned out to be a smorgasbord of desserts and appetizers! Next year we will set up a “what are you bringing” chain so we get a mix of side dishes included! The weather could not have been better, and some of us even left with plant cuttings from Ed. It was a wonderful day of fellowship.

# BNWR OPEN HOUSE

COT members joined the Friends of Brazoria Wildlife Refuges at our last outreach event of the year; the annual Open House at the Brazoria National Wildlife Refuge. The event runs from the day after Christmas, through New Year's Day.

Activities this year included, the always popular snakes, alligators and turtles, animal pelts, microscope pond life, animal tracks, leaf rubbing, owl pellets, and wingspan measuring.

# December Beach Sweep

Can you say windy and cold? That's what the brave naturalists had to contend with as we knocked out a lot of trash and entrapment material (see photos) that was just waiting there to entrap wildlife. There were seven of us. I dubbed us "The Magnificent 7" for braving the elements to make a difference. Yes, today was a challenge and our thanks go out to all who came out and witnessed the elements of winter on the beach.

God Bless All of You!  
Jimmy & Luanne
